Hi (b)(6)

Yes, 1300 works great. I will drive over that morning, so that is perfect. For the demo, I just need access to a wireless network and a projector. I can bring a projector if need be. I have a small portable one. What address should I use? I can jump on a short call today as well to discuss logistics if you like. Thanks!

Hi (b)(7)(C)

Thank you for coming to the demo yesterday. When we first introduced GrayKey, we communicated a 300 unlock limit for the 12 month license in an effort to differentiate between large and small accounts. However, we have removed that limitation, and a 12 month license offers unlimited unlocks. The reason for this, is because having a ceiling put us into a conversation around a "per unlock" price, which is not our business model. I hope this helps. Thanks!

Subject: GrayKey Introduction and Demonstration

Thank you for your interest in GrayKey. We are excited about the launch and as we have been preparing to release, we have been giving regular demonstrations in person and more recently via WebEx.

I would like to invite you to join me for an introduction of Grayshift and our GrayKey technology via WebEx that I am giving next week. Following a few slides, I will move into a demonstration of GrayKey using an exemplar iOS device. During the WebEx, you will be able to see the unit as well as the view of how it works from the user interface.

During this demo, we ask that it be limited to Government end-users or Contractors that work onsite. We are not ready to demonstrate this capability to the private sector as of yet. Thank you for helping us with this. To register for the demo, please follow the link below. I look forward to a productive and informative meeting.

If you have any questions at all, feel free to reach out. If an in-person demo is more appropriate for your organization, we are happy to discuss. Thank you!

Subject: GrayKey Introduction and Demonstration

Thank you for your interest in GrayKey. We are excited about the launch and as we have been preparing to release, we have been giving regular demonstrations in person and more recently via WebEx.

I would like to invite you to join me for an introduction of Grayshift and our GrayKey technology via WebEx that I am giving next week. Following a few slides, I will move into a demonstration of GrayKey using an exemplar iOS device. During the WebEx, you will be able to see the unit as well as the view of how it works from the user interface.

During this demo, we ask that it be limited to Government end-users or Contractors that work onsite. We are not ready to demonstrate this capability to the private sector as of yet. Thank you for helping us with this. To register for the demo, please follow the link below. I look forward to a productive and informative meeting.

If you have any questions at all, feel free to reach out. If an in-person demo is more appropriate for your organization, we are happy to discuss. Thank you!

To whom it may concern,

My name is (b)(6);(b)(7)(C) and currently assigned as the Deputy Director of the University of Alabama Joint Electronic Crimes Task Force. Our task force just participated in your webinar and was very impressed with the GreyKey capabilities. We respectfully would like to request an on-site visit to our cyber lab and have a demo and discussion on this tool. Please provide me some dates (mid-to-late March) to discuss. Please email or contact me on one of the below numbers so we can coordinate a date.

Thank you,
